Black can be ~~define~~ defined as the visual impression experienced in directions from which no visible light reaches the eye. This make a contrast with whiteness. Black is the lack of all colors of light, or an exhausive combination of multiple colors of pigment.

Le criminel de l'Orient-Express voyage en wagon première. Nobles et gracieuses, rigides à la fois mais tellement ~~sophis~~ sophistiquées. Grise flanelle, velours feutrés, peaux exotiques ~~de~~ d'autruches et de crocodiles. Traits nets et fins, jeunes filles en fleurs. Narcisses, orchidées, psychotropes et opiacés. Alphonse Mucha, Joris-Karl Huysmans, mlle Chanel dans sa chambre d'hotel. Un scandale pétillant comme une coupe de champagne, qui monte à la tête et rend un peu fou, folles comme ces années, vingt, du graffiti tendance vintage... Arsène Lupin pour vous saluer!

The Orient-Express criminal travels in a first class wagon. Noble and gracious, rigid yet so sophisticated. Grey flannel, felted velvet, ostriches and crocodile exotic skins. Thin black lines, blossoming young girls. Narcissus, orchids, psychotropes and opiates. Alphonse Mucha, Joris-Karl Huysmans, Miss Chanel in her hotel room. A scandal that sparkles like a glass of champagne =, it goes straight to the head and makes you slightly crazy... crazy like those years, the twenties, graffiti with a vintage tendency... BERLIN

Often I ask myself: „why do you do
what you do?" I try to find an answer
but I can't. Doing a piece in my city is
communicating with people to me.
I write for more than 10 years now and I think
I still do it cause I think there is a positive
culture behind it. Writing is my way to speak,
wisper, scream and cry out my feelings.
Maybe it is not the best way, but I grew up
with it and just can't stop. I try to find
new ways of communication,
I'm not satisfied with
myselfe and I'm
not satisfied with my city
but I like to give love to
the people

THIS IS THE ONLY REASON WHY YOU SHOULD GO THERE: TO SEE 50 milion DEAD PREZ WORTH PICASSO'S PAINTING ONLY FEW OF THEM ARE MAGNIFICENT & RAP EMUFF. FOR EX: SOME OF WARHOL'S + LICHTENSTEIN'S & POLLOCK ... OR BEATIFUL ELLSWORTH KELLY'S "COLORS FOR A LARGE WALL" + KENNETH NOLAND'S STUFF. IF YOU WANT TO LEARN HISTORY of ART OR MASTURBATE IN FRONT OF DALI'S CRAPY "THE PERSISTENCE OF MEMORY" IT'S PLACE JUST FOR YOU. BUT IF YOU ARE PIMPIN' FAN → GO TO HAMBURGER BANHOF MUSEUM. rso 196

my name is **rso 196**, also known as **kran/paolo manione/mrn/synogarlica/tt55fea/metro/neck/pii**

i was born in the most beautiful city in POLAND, in POZNAN. Here we have a river, the old market, some shops (for example with shoes). I love poznan, becouse i can to spend my free time in the clubs (for example: 7 heaven, GOGO), where djs play good music. i dance with my friends and i meet fine girls, which are 12-13 years old.

but i am not interested to make love (sex) with girls. i need understanding, acceptance. you know, i'm looking for the kindred soul. my poetry is talking about that, about the real love. my art shows my feelings, feelings of pure, full balance between my body and soul.

i have written since 1984. the first volume of my poetry - „soul journey" - talks about searching and founding. the last one i have named „zen". it's the best poetry of my life. in my the newest poems i am opening myself.

„zen"

МОСКВА

Moscow in 100 words

Moscow- the city of contrasts, big possibilities, golden domes and dusty streets. Home for 12 millions of people. It has the biggest number of bilioniers in the world (36) and the biggest and the most beautifull subway system with nice trains of 60's. It's the capital of Russia, but it's not Russia, it's like oasis in desert with almost all money, power, mafia, bitchez, clubs and everything. All kinds of political and other decisions are made here. A lot of education centers and universities are located in capital. I like this city and i hate it at the same time. The good thing is fast rythm of life, big possibilities to have good education level and work, if you are interested in politics or economy it's very interesting to live there, because it's like whirpool of experiences, but on the other hand people there are unfriendly and often rude, coruption is everywhere without exceptions, there are a lot of pluses and minuses like everywhere and number of them depends from your social and financial position. So if you are really rich you can live there with a big pleasure and you won't see any minuses, but don't go to political scene, because it can ruin your life and succes (i think you know the example (M.Kh.)).

And now we can leave all these serious themes and talk about normal students life. Studys, parties, bitchez, pimpin', ganja, beer and graffiti.

It's really nice to study there, studies begans in the morning and lasts usually till 3 or 4 o'clock (pm). It's possible to miss a lot of lectures and to learn everything just before the session, than passing exams and another course.

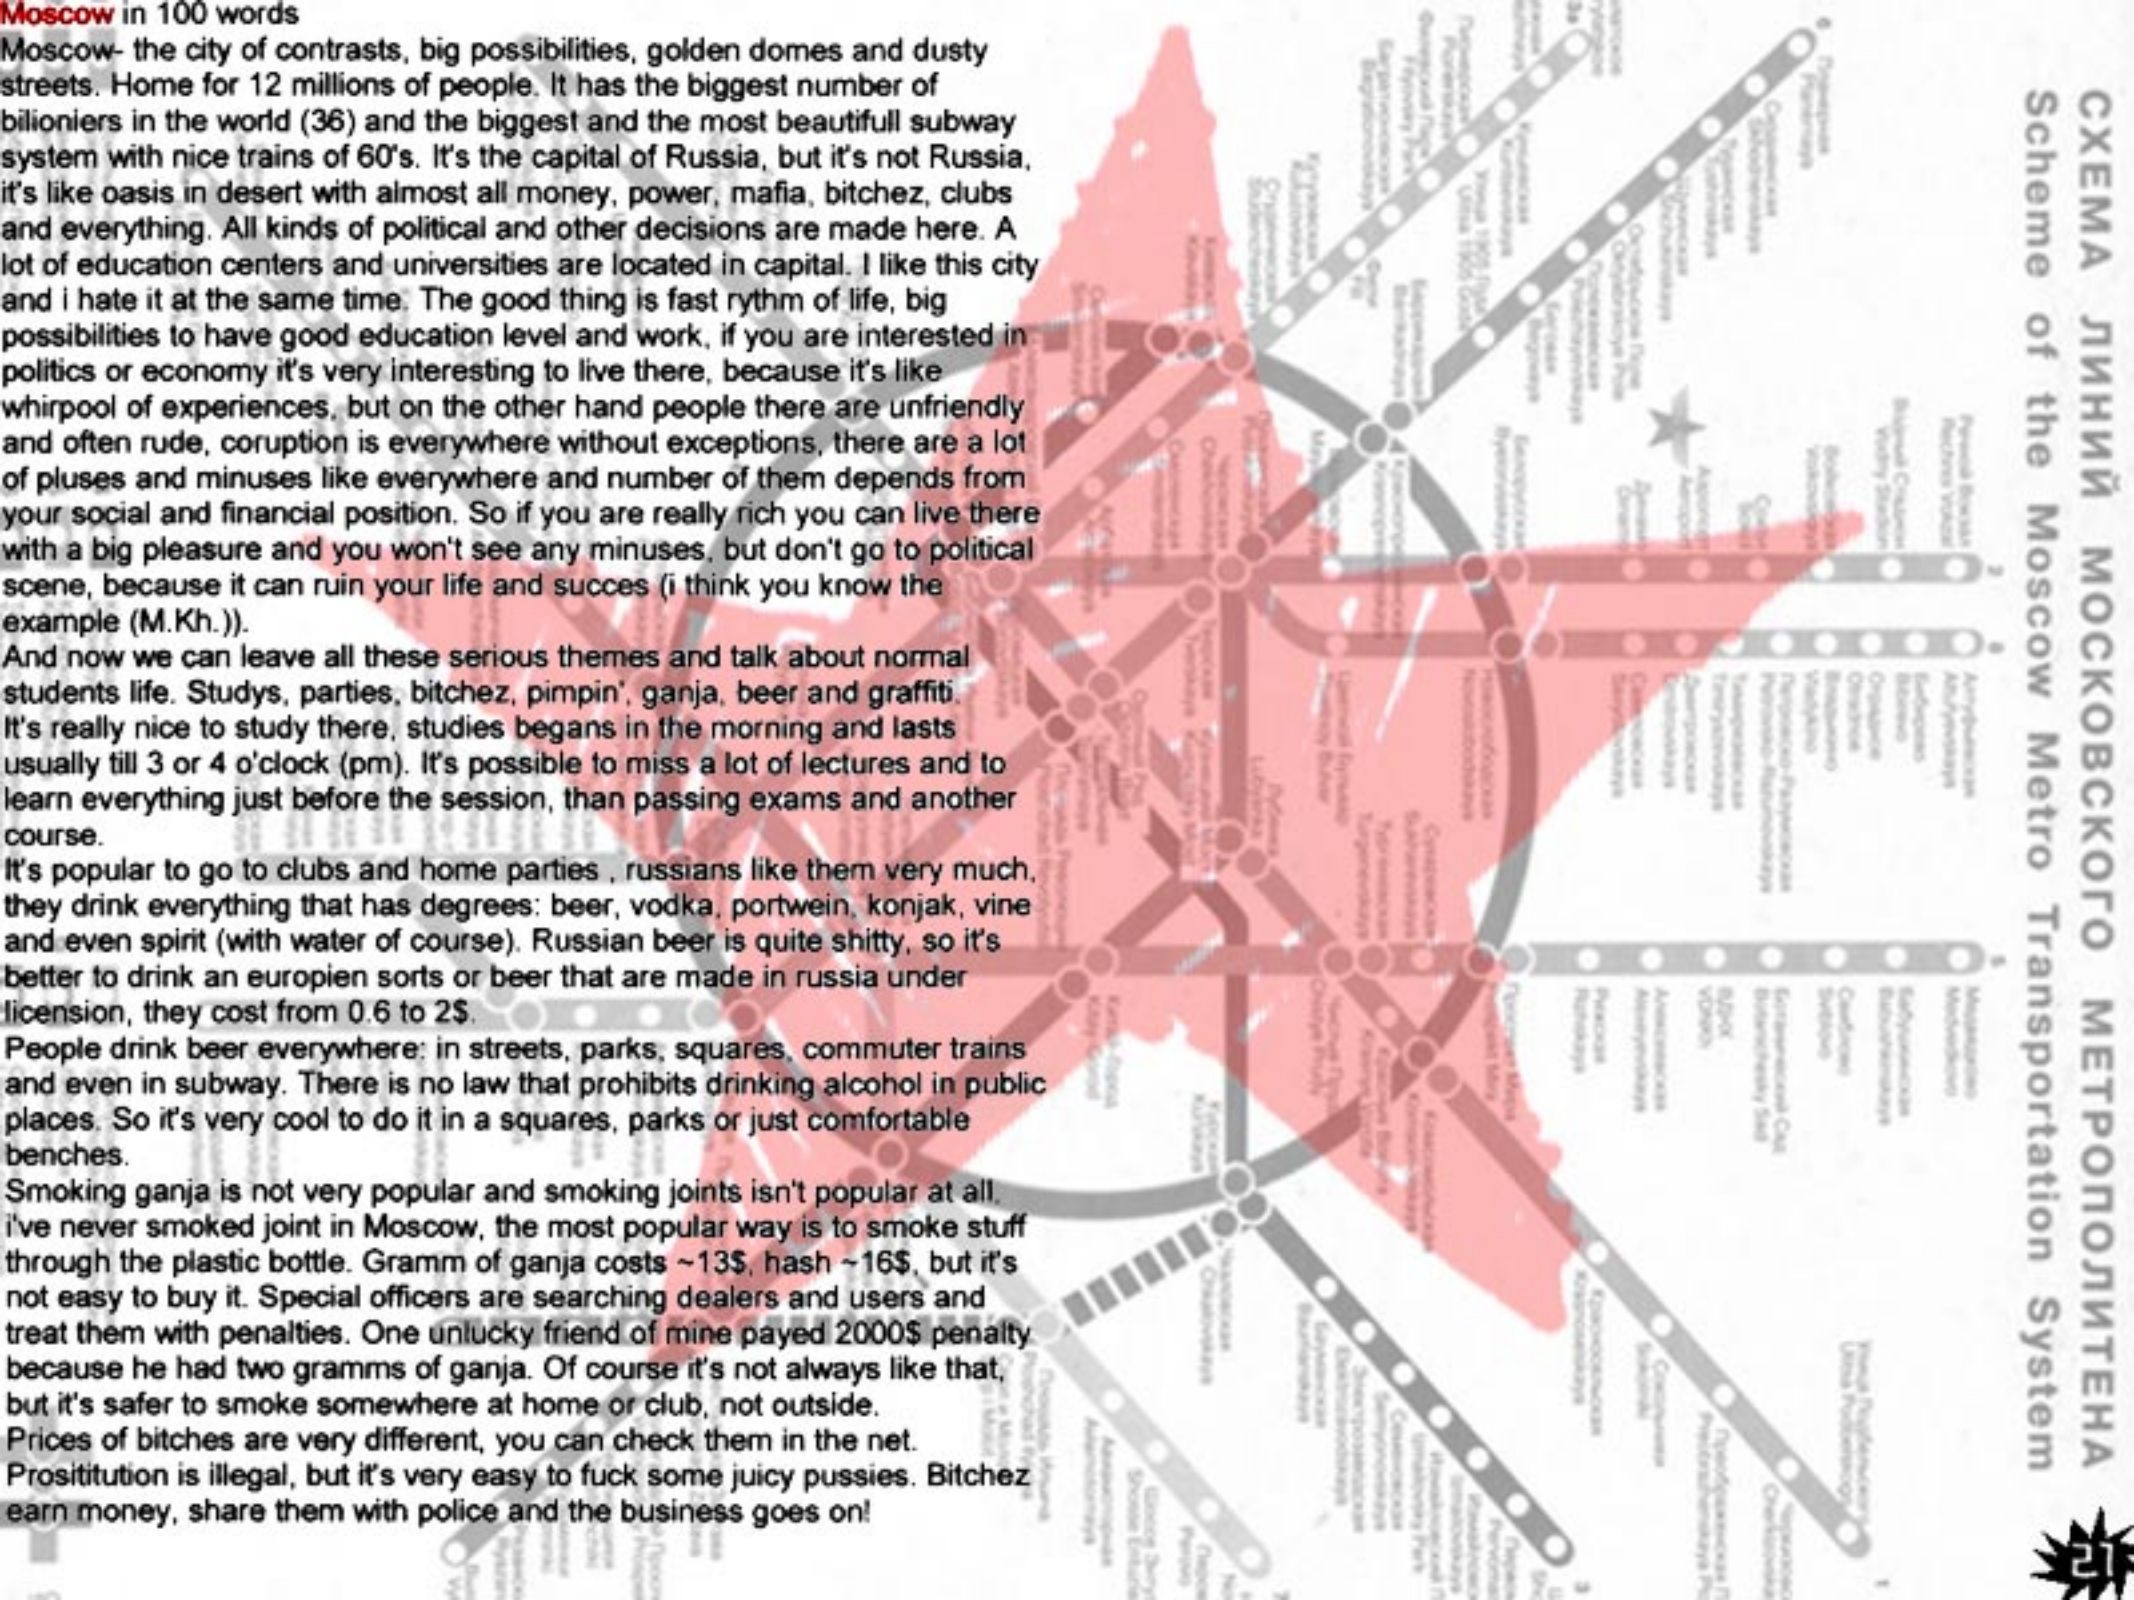
It's popular to go to clubs and home parties , russians like them very much, they drink everything that has degrees: beer, vodka, portwein, konjak, vine and even spirit (with water of course). Russian beer is quite shitty, so it's better to drink an europien sorts or beer that are made in russia under licension, they cost from 0.6 to 2$.

People drink beer everywhere: in streets, parks, squares, commuter trains and even in subway. There is no law that prohibits drinking alcohol in public places. So it's very cool to do it in a squares, parks or just comfortable benches.

Smoking ganja is not very popular and smoking joints isn't popular at all. i've never smoked joint in Moscow, the most popular way is to smoke stuff through the plastic bottle. Gramm of ganja costs ~13$, hash ~16$, but it's not easy to buy it. Special officers are searching dealers and users and treat them with penalties. One unlucky friend of mine payed 2000$ penalty because he had two gramms of ganja. Of course it's not always like that, but it's safer to smoke somewhere at home or club, not outside.

Prices of bitches are very different, you can check them in the net.

Prositution is illegal, but it's very easy to fuck some juicy pussies. Bitchez earn money, share them with police and the business goes on!



Graffiti. There are a lot of commuter trains yards, lines, lay up's, spots for backjumps and wholecars. Each train consists of 10 cars so it's very nice to do backjumps even while painting on the center of train you feel safe enough. It's really easy to paint commuters, security is weak, not organised and it can take bribe, but usually drivers take care of their trains and chase writers and they also like bribes.

I can't say a lot about subway. Everything that i know is that it's difficult to get in and if you are in it's possible to paint for an hour. I'm badly informated and i don't know the situation in subway well. So thats all, come to **Moscow** and you'll see (and try) everything!!! (at your own risk)

KNS → interview

Rapsoft: Who is NIUNIUNI? Where does he come from?

KNS: That was a WSB's idea. He invented phantom-oboe player, member of CZYKITA project, and A2G said that this is KNS. That was NIUNIUNI's birth...So...NIUNIUNI organize concerts, music performances and stuff like that on different festivals. Ask me better do I masturbate...

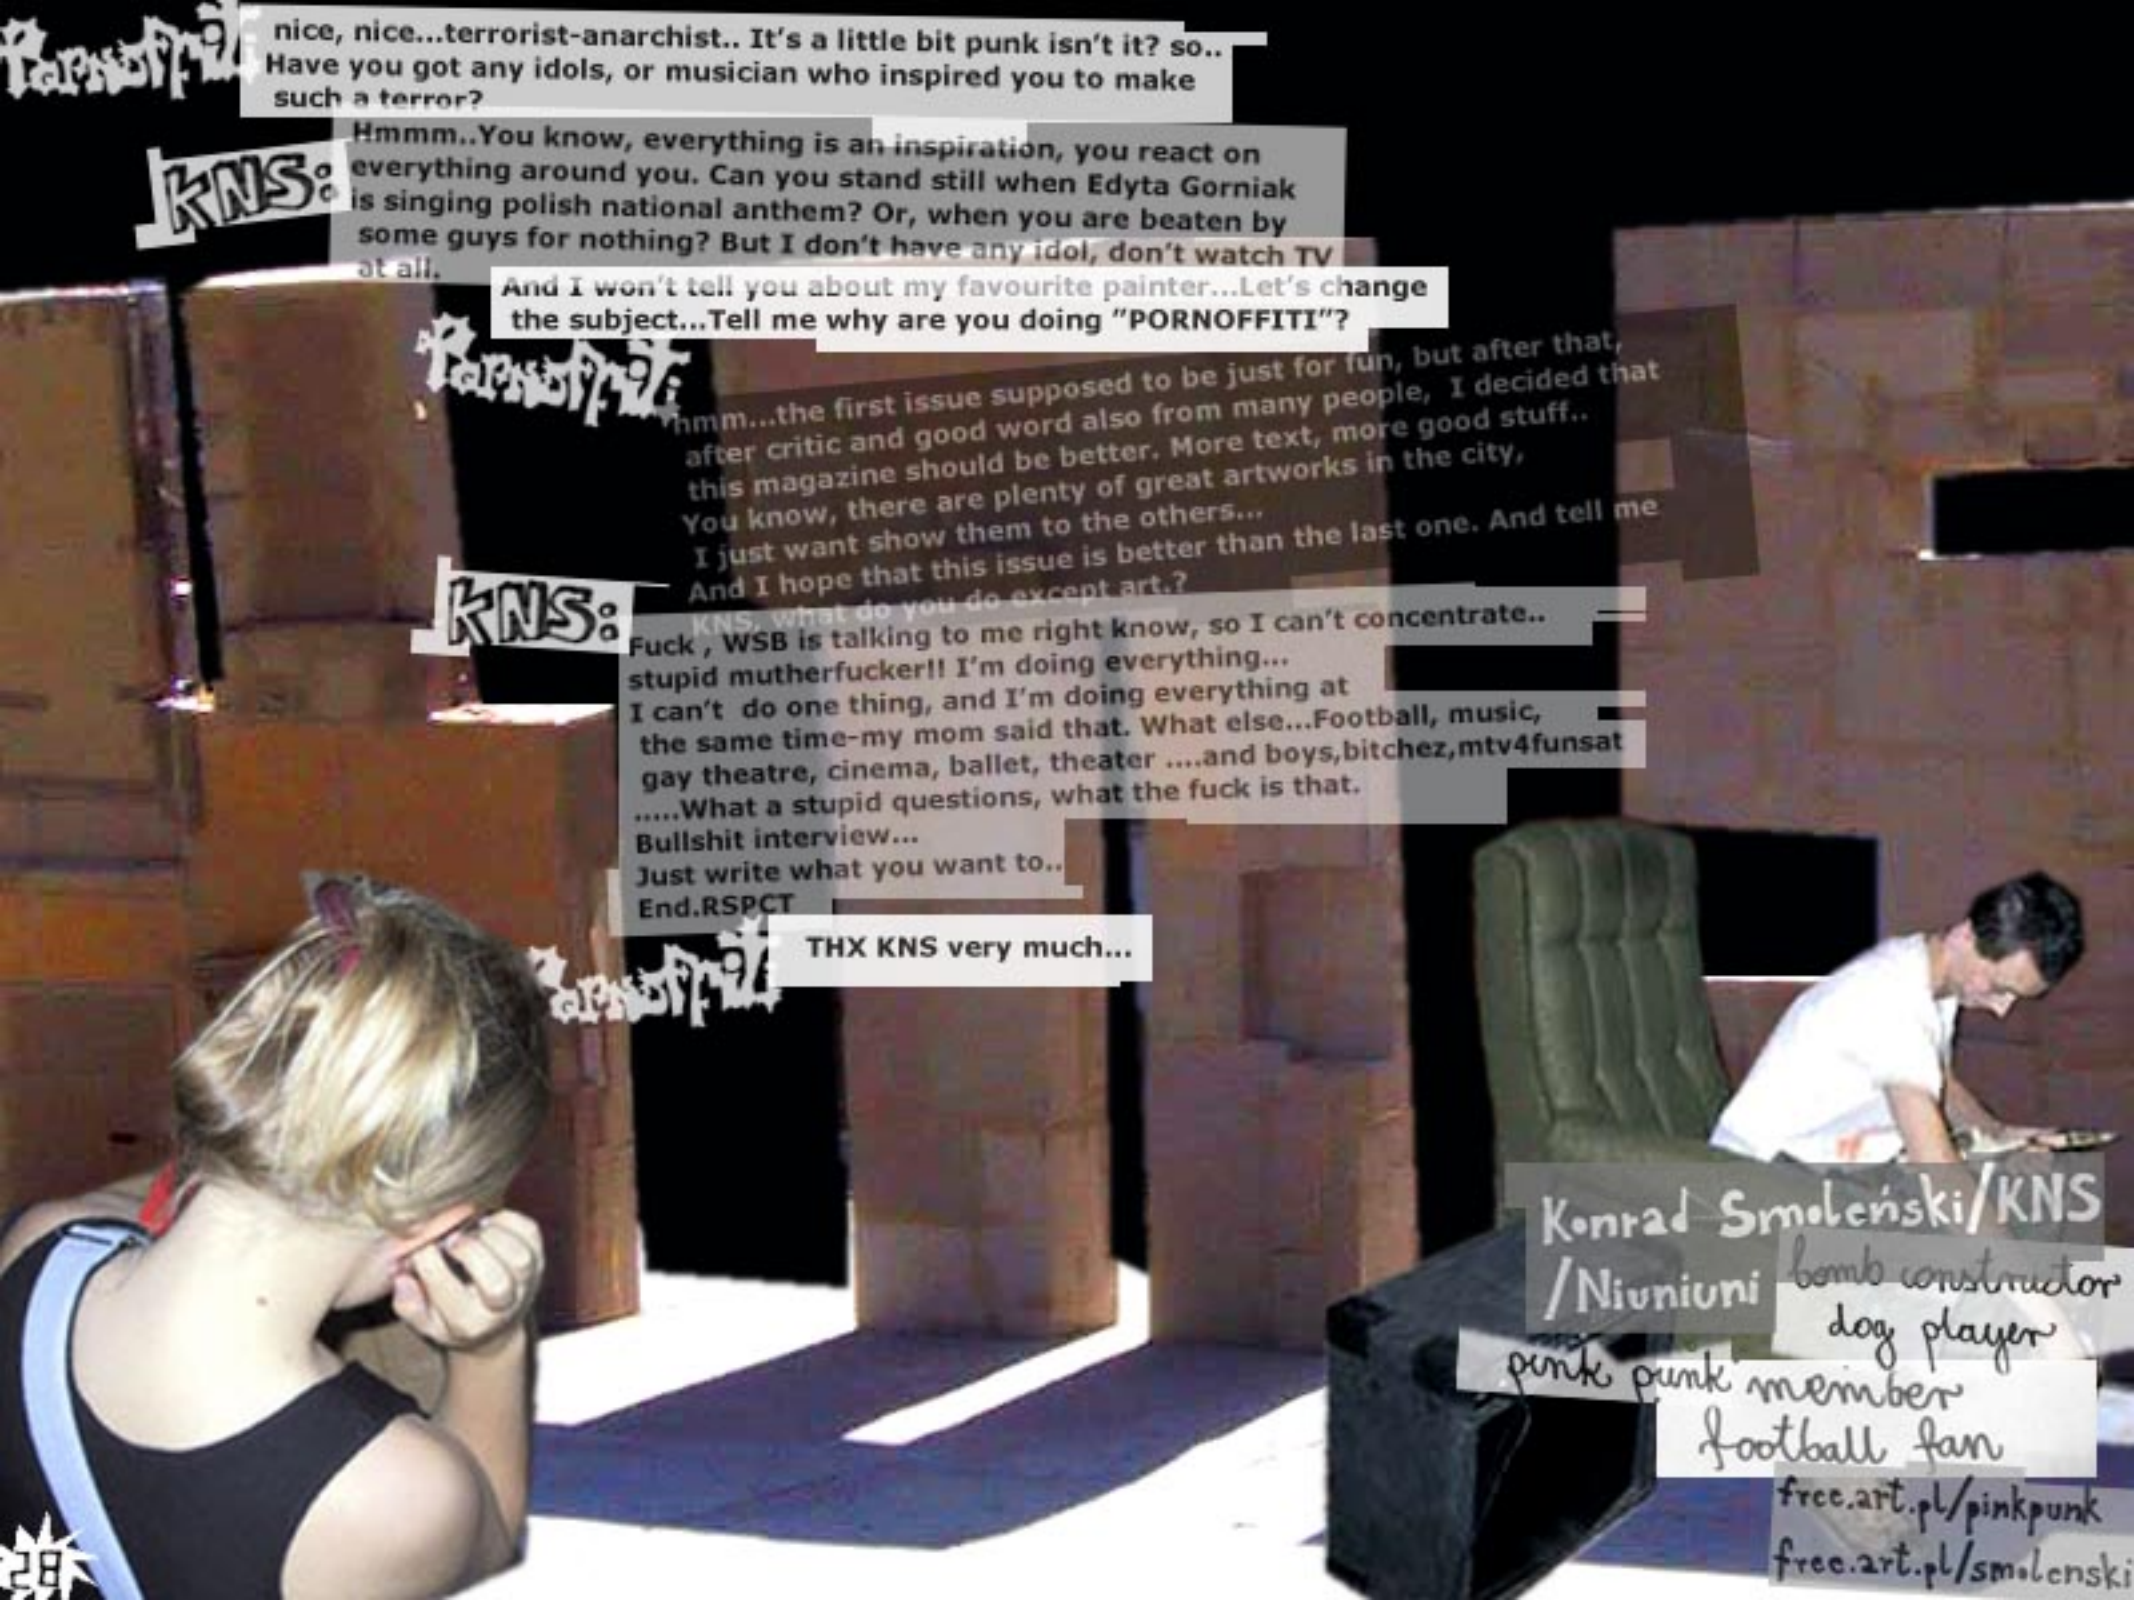
Rapsoft: Do you masturbate? And I've heard that you are bomb-constructor as well...and fuck bitchez..Is that true?

KNS: YES . Last time I went in Marcinkowskiego Street (a place where you can find plenty of bitchez in Poznan) they said to me: „Just turn around sucker"...I chickened out... And every terrorist-masturbator has to do a bomb sometime.. I've made 2, and took them to 4 planes ..I use them, like my dog, as a music instrument and believe me that they can sound fuckin' loud!!! I have an idea to put them between my legs, cause of theirs specific shapes (they look like penis).Or maybe I will do new instrument...

And don't you think, that being an artist (for example doing performances) is masturbating in someways??And graffiti is like pissing on walls by dogs...

Rapsoft: Yes..Exactly. It's all about marking territory. That's the whole graff-philosophy...You have got on your website such a sentence :" Bardziej sztuczka niż sztuka (I can't translate it ...maybe„rather fart than an art") very nice...so fun or swindle?? And where does such a music-terror come from, and who influenced on you the most.?

KNS: Damm HNZ!! From my observation, all I can tell is that an art is similar to graffiti in someway. Especially when it comes to „BE" in ...I see that artists don't take care about art (That they don't feel like doing art is a need, or fun, or a joke...But first of all you have to think about art and have a fun somehow). They care more about being an artist in artistic world, than an art. That's sucks!!! And that's the reason of my last project. „Pieces" KNS on every exposition what I participate in. You know, I'm „pissing' on those places with my mark. The same is with the music-terror. People often come to concert, talk bullshit and don't listen to music. Terrorist will crush them with a NOISE!



nice, nice...terrorist-anarchist.. It's a little bit punk isn't it? so..
Have you got any idols, or musician who inspired you to make such a terror?
KNS:
Hmmm..You know, everything is an inspiration, you react on everything around you. Can you stand still when Edyta Gorniak is singing polish national anthem? Or, when you are beaten by some guys for nothing? But I don't have any idol, don't watch TV at all.
And I won't tell you about my favourite painter...Let's change the subject...Tell me why are you doing "PORNOFFITI"?
Hmm...the first issue supposed to be just for fun, but after that, after critic and good word also from many people, I decided that this magazine should be better. More text, more good stuff.. You know, there are plenty of great artworks in the city, I just want show them to the others...
And I hope that this issue is better than the last one. And tell me
KNS: what do you do except art.?
KNS:
Fuck , WSB is talking to me right know, so I can't concentrate.. stupid mutherfucker!! I'm doing everything...
I can't do one thing, and I'm doing everything at the same time-my mom said that. What else...Football, music, gay theatre, cinema, ballet, theater ....and boys,bitchez,mtv4funsat .....What a stupid questions, what the fuck is that.
Bullshit interview...
Just write what you want to..

DELTRON'S MUZIC +

prince -for you

ego!

prince's reign as one of modern music's originals began at the age of seven when he began teaching himself to play piano. he quickly moved on to guitar, drums and, eventually, 23 other instruments. at age 12, prince had formed his own group, grand central (later champagne). in 1976, he left the band to pursue a solo career. in late 1977, prince realesed debut album for you. produced, arranged, composed and pertormed only by himself. this album is still bomb! introduction to prince 's sizzling, sexually explicit lyric approach. explosion of funk, wicked keyboard dominating sound and sculpter point g's guitarrr. for you served notice of the whole new blend of rock, funk r&b and dance rythms that was to make prince a major influence on today's music. almost everybody have coppied him, but there is only one prince... don't believe the hype! his majesty wasisandwillbe on the throne from the beginning to the end of time.

Bitches & pimps in Ukraine-with that problem our country struggle first of all.But not as with threat to health of citizens or with a problem of social vulnerability of women.Prostitution in Ukraine is a penal one and a half year . Lawyers, policemans and physicians count it a legal joke.To prove in court fault of the girl, it is necessary to interrogate third witnesss who will confirm: really been paid.The European countries try status of the citizens employed in the sex industry.In Netherlands and Germany - prostitution has been legalized. In Greece - prostitution also is legal,but at the same time bitchez must have obligatory registration and regular medical inspections. Ukraine today cannot give high level of living to any of the citizens.The employees in police - speak "about struggle against bitches" and "about detention of pimps",they think first of all about of struggles against criminality which in practice is poured out in struggle against prostitutes and those who trade them. But with them it is necessary not to struggle, they need to be given alternative, chance to get out. But that kind of alternative does not exist,and will not exist because there are people who earn money on this business...THE Pimps!!! In February, 2003 the Ukrainian sociologists have promulgated statistics.Several thousand of Ukrainian women are bitchez - from the age of 10 to 20. 70% from them were pushed on streets with need - to earn on livehood for themselfs and theirs family too. One more terrible figure - almost 30% of them are drug addict.Experts assert: it's impossible to find out how many Ukrainian bitches infected with HIV. Not every pimp gives condoms and does not spend psychological consultations,thus he does not protect the bitches and clients from danger of infection!!! In Ukraine there will be pimps, bitches will work, and police will earn on them money:) So be careful... it's bizness .and all my rap.
